

CHICAGO BULLS COLLEGE PREP

A CAMPUS OF NOBLE STREET CHARTER SCHOOL

Chicago Bulls College Prep Mission and Core Values 2016-2017

Our mission is to prepare students for college graduation and purposeful citizenship by exhibiting ambitious scholarship, self-discipline, honorable character, and a fit lifestyle. Perseverance and hard work are the foundation of our success. We seek to build a long-term partnership with our community, students and their families grounded in mutual respect. We are defined by our innovative approach to academic, cultural and physical excellence.

Results

We assume personal responsibility for ambitious goals that support our mission. We use results as self-reflective tools for our improvement. We ground our performance and decision-making in our mission. We reflect and use data to determine the best course of action. We seek to foster new and sensible ideas. We fail well. We eliminate barriers that prevent us from operating simply and efficiently. Excellence is not a single act but a habit.

Follow-Through

We do what we say we'll do and thoroughly complete required tasks in a timely manner. We sweat the small stuff. We communicate expectations as far in advance as possible. We maximize clarity and specificity. We are thorough in our plans to fulfill responsibilities and promises. We build trust with consistency. We own mistakes when we make them.

Diversity

We value diversity of race, ethnicity, gender, sexual orientation, ability and socio-economic background as an essential part of accomplishing our mission. We seek input from others and welcome a variety of perspectives to arrive at the right outcome. We partner with students, parents, families, staff and other constituents. We are inclusive and reach out to bring others in.

Collaboration

We assume the best in people. We extend help to others for their benefit, not for personal gain. We hold each other accountable. We support one another through mutual respect and look for common ground. We seek opportunities to serve one another. We address conflicts constructively and are direct and professional. We are solutions-oriented.

Respect

We assume we can be better and put aside ego for the sake of improvement. We have courage to change. We willingly reflect on our practice, seek accountability, and reject entitlement. We bear in mind the limitations of our own experience as we value and seek out each other's expertise. We express gratitude and appreciation.
